Languages
- HTML   : Intermediate
- CSS   : Intermediate
- JavaScript   : Intermediate
- C   : Intermediate
- Python   : Beginner
- SQL   : Intermediate

Operating Systems
- Windows, Linux, MacOs

Database
- MySQL

Other
- Docker, MS Office, Vercel

PROFILE SUMMARY

Driven by a passion for technology and innovation, I aim to leverage my skills to create solutions that improve lives and protect the environment.

PROJECT EXPERIENCE

FindWork – Freelancing Web Platform

As part of our 2nd year final semester Computing Group Project module, we developed a job-matching platform to connect employers with skilled individuals, focusing on inclusivity and real-time interaction.

- Role: DevOps & Deployment
- Docker-based environment and CI/CD pipelines
- Deployed on Vercel for production delivery

Technologies: React.js, Next.js, Node.js, TypeScript, MongoDB, Tailwind CSS, Docker, Vercel

Website: https://findwork-webapp.vercel.app
GitHub: https://github.com/plymouth-projects/findwork-webapp

E-Commerce Website for Travel Agency

In my 1st year, 2nd semester at NSBM Green University, my team developed a full-featured e-commerce website for a travel agency. The project included:

- Front End: HTML and CSS
- Back End : JavaScript and PHP
- Database : phpMyAdmin
